

SONNET J. LAMOTHE

FULL-STACK DEVELOPER • NETWORK ARCHITECT • SOLUTIONS SPECIALIST

Homestead, FL 33035

(305) 570-3277

sonnet@compnetdesign.com

www.online_profile.link

A multi-faceted technology professional with over 15 years of experience in software engineering, network architecture, and high-level client relations. As the founder of **CompNetDesign**, I have bridged the gap between complex technical requirements and intuitive user experiences. My expertise spans the full development lifecycle—from front-end design to robust back-end infrastructure—complemented by advanced coursework in Artificial Intelligence and Machine Learning from UT Austin.

PROFESSIONAL EXPERTISE

DEVELOPMENT STACK

HTML5, CSS3, JavaScript (jQuery), PHP, Python, MySQL, PostgreSQL, MariaDB.

PLATFORMS & CMS

WordPress, Joomla, WooCommerce, PrestaShop, IIS, Nginx, Apache Servers.

Adobe Photoshop, Illustrator, GIMP, Inkscape; UI/UX focus.

WORK HISTORY

Founder & Lead Developer | CompNetDesign

2002 – PRESENT

Independent Technology Consultant

- **Full-Stack Development:** Engineered high-performance websites for diverse clients (e.g., IECAO, NLWTC), specializing in custom integration and responsive design.
- **E-commerce Solutions:** Orchestrated the deployment of large-scale e-commerce stores using WooCommerce and PrestaShop to streamline client sales operations.
- **Systems Architecture:** Architected robust back-end environments with SQL Server, Oracle, and MySQL for reliable data management.
- **Mentorship & Leadership:** Managed technical workflows and mentored junior staff in troubleshooting protocols and escalation handling.

Assistant Manager

2014 – 2025

Brandsmart USA, Miami, FL

- **Operational Excellence:** Directed daily operations to ensure alignment with corporate performance goals and quality standards.
- **Team Leadership:** Cultivated a collaborative work environment by mentoring staff and improving cross-departmental communication.

Web Design & Development

2010 – 2011

Make A Wish Veterans, Miami, FL

- Developed and maintained custom web platforms to enhance community engagement and service reach.

Technical Support & Escalation

2006 – 2008

DirecTV (Precision Response Corporation)

- Resolved critical network issues and escalated technical failures for high-priority accounts.

Customer Service Supervisor

2003 – 2006

Expedia (Precision Response Corporation)

- Managed high-volume customer interactions and spearheaded troubleshooting for complex travel itineraries.
